Adding and checking

- 9 The top three games in a shop cost £35.89, £28.45 and £19.20. How much is it for all three games?

£83.54

- 10 Use the inverse to check the answer to this addition.

$6844.3 + 798.71 = 7743.01$

The addition is incorrect.
 $6844.3 + 798.71 = 7643.01$

- 11 Write and solve your own addition. Check it using the inverse.

Answers will vary.

Explain how you could add an extra tenth.
